St. Thomas, VI, Friday, October 24, 2014

Kristy Solt (left) and Leah Casteel (right) of Patient Assist VI accept \$5,000 donation from Dr. Peter B. Corr of Auven Therapeutics Management LLLP.

For the third year in a row Auven Therapeutics Management, L.L.L.P, a global private equity firm focused on the development of new medicines primarily in cancer, eye diseases and orphan diseases and a local EDC beneficiary, is making a \$5,000 donation to the local non-profit, Patient Assist VI, Inc.

Founded in 2007 by Biopharmaceutical industry veterans Stephen Evans-Freke and Dr. Peter B. Corr, Auven Therapeutics Management L.L.L.P. is an investment advisor for the Auven Therapeutics fund with its principal place of business in the US Virgin Islands. Dr. Corr has been a board member of Patient Assist VI (PAVI) since its inception. As a leader in the

pharmaceutical industry he champions the mission of PAVI, helping patients receive much needed medications they require to lead healthy lives.

Patient Assist VI, Inc. is a registered 501(c)(3) nonprofit organization whose mission is to help patients obtain prescription drug medications that would otherwise be unattainable due to income limitations.

Patient Assist VI was founded in 2012 on the principal that no person should have to choose between paying for their medications or their basic living expenses. Unfortunately, because so many in the U.S. Virgin Islands are without health insurance, they face this dilemma every day.

Patient Assist VI offers patient advocacy services free of charge to individuals in need. The organization accesses medications through pharmaceutical assistance programs from individual pharmaceutical companies, charitable foundations and also pays for medications outright for qualified patients. PAVI also provides patients with information regarding drug discount programs so that they may continue receiving their medications at no or little cost.

PAVI is currently helping qualified patients on St. Thomas and St. John, with the hopes of one day expanding services to St. Croix. The organization looks forward to the day when all patients in the U.S. Virgin Islands will not only receive the medical care they need, but also the medications necessary to lead healthy, productive lives.

For more information on Patient Assist VI or to inquiry about how to obtain assistance, please contact: Kristy Solt at (340) 775-0053 or Leah Casteel at (340) 227-0317 or email us at patientassistvi@gmail.com.
